Wow, I was stunned by the November response. Yes, we did get a couple of especially large donations, \$23,000 together, which decreased our deficit by a lot. But just as important, for only the second time in the entire year, our regular contributions, not counting those special donations, would have exceeded our expenses by themselves.

If we could do something like this again during December, in a Christmas thank you to God, we could come close to coming out in the black for the year. What a way to show our thanks to the Lord for His many blessings!
